

MARK LUIS F. BARICAN

Software & Web Developer | Next.js · React · TypeScript · Node.js · PostgreSQL

Quezon City, Philippines · business.markbarican@gmail.com · linkedin.com/in/mark-barican · github.com/Mark-Barican · mark-barican.vercel.app

PROFESSIONAL SUMMARY

Full-stack software and web developer with 5+ years shipping production web applications in Next.js, React, TypeScript, and Node.js on PostgreSQL and MySQL. Works across the stack: REST and GraphQL integration, JWT auth and role-based access control, relational data modelling, Shopify e-commerce, and interactive 3D with Three.js. Shipped sites scoring Lighthouse 94–100 Performance, 100 SEO, and 96–100 Accessibility. Owns delivery end to end: requirements, architecture, client communication, and deployment.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), Python, Java, C++, C, C#, PHP, Dart, SQL, HTML5, CSS3

Frontend: React, Next.js, Tailwind CSS, GSAP, Framer Motion, Three.js, Bootstrap, jQuery, Responsive Design, Cross-Browser Compatibility

Backend & APIs: Node.js, Laravel, Prisma, REST APIs, GraphQL, JWT Authentication, Component-Based Architecture

Databases & E-Commerce: PostgreSQL, MySQL, MongoDB, SQLite, Firebase, Shopify, Liquid, Hydrogen, Oxygen

Cloud & DevOps: Vercel, Google Cloud, Cloudflare, Apache, Git, GitHub

Tools & AI: Claude Code, Codex, n8n, Figma, Unity, Blender, Photoshop, Pandas, NumPy, TensorFlow

Practices: Performance Optimization, Technical SEO, Core Web Vitals, Accessibility, UI/UX, Agile

PROFESSIONAL EXPERIENCE

Freelance Software / Full-Stack Developer | Self-Employed

Mar 2021 – Present

- Delivered end-to-end client engagements, custom websites and web-based systems, owning scope from requirements gathering through architecture, development, and deployment.
- Built production applications with Next.js, React, TypeScript, and Node.js on PostgreSQL and MySQL, managing client requirements and delivery timelines directly.
- Run an AI-accelerated workflow (Claude Code, Codex, n8n) to shorten iteration cycles without lowering code standards.

E-Commerce Developer (Contract) | Rise Beauty & Wellness Corp

May 2025 – Jul 2025

- Developed and deployed a responsive e-commerce website for a skincare brand, building the product catalog pages and customer-facing storefront UI.

Frontend Developer (Remote) | Boxed Blossoms, Makati, PH

Nov 2024 – Feb 2025

- Revamped the company's full Shopify storefront within a 3-developer team; the site launched successfully and remains live in production.
- Architected the initial build on Shopify Hydrogen (React) with Oxygen deployment and GraphQL, then re-platformed to Shopify themes and Liquid to meet delivery timelines.

Game Development Apprentice | Definite Studios

2021

- First professional development role, building game features and interactive systems in Unity with C#.

PROJECTS

LoanLink | Full-Stack Loan Management System · Next.js 15, React 19, PostgreSQL, Tailwind, JWT · loan-link-finals.vercel.app

- Engineered a loan platform with multi-role JWT auth (Admin / Manager / Staff), repayment scheduling, payments, and a live analytics dashboard; nominated for the Inabel Awards.

Vintage Rider Manila | E-Commerce Storefront with 3D Viewer · Next.js, TypeScript, Three.js, WebGL · vrm-demo-umber.vercel.app

- Built a full multi-page storefront: product catalog, category filtering, persistent cart state, user accounts, and auth.
- Integrated an interactive Three.js / WebGL viewer for real-time 3D product rotation, zoom, and inspection.

Endfield Gacha Simulator | Probability Simulation Engine · Next.js, TypeScript, Python · endfield-gacha-simulator.vercel.app

- Built a simulation engine modelling soft and hard pity thresholds, spark guarantees, and banner rules, validated against official published rates; used by 5,000+ people.

Recraft | Cinematic Brand & Marketing Site (client demo) · Next.js, TypeScript, CSS · recraft-bar.vercel.app

- Built a high-end single-page brand site with animated section transitions and a responsive, content-driven layout, scoring Lighthouse 94–100 Performance, 100 SEO, 100 Best Practices, and 96 Accessibility.

TORA | Restaurant Brand Site (client demo) · Next.js, TypeScript, Tailwind CSS

- Built a dark, photography-led marketing site for a modern Japanese restaurant in BGC, with an image-heavy layout tuned for fast mobile loads.

Additional builds

- WeRide: parts catalog storefront, Lighthouse 100 SEO and 91 mobile performance (weride-demo-site.vercel.app). Valentine's 2026: real-time 3D and motion experiment in Three.js / WebGL.

EDUCATION & CERTIFICATIONS

BS in Computer Science, CIIT College of Innovation and Integrated Technology, Manila, PH (expected 2027) | Languages: English (Professional), Filipino (Native)

Certifications: Cisco Introduction to Networks · Cisco Introduction to Cybersecurity · IBM Cybersecurity Fundamentals · Alibaba Cloud AI Journey
