

Mark Luis F. Barican

Full-Stack Developer | Quezon City, Philippines

business.markbarican@gmail.com • linkedin.com/in/mark-barican • github.com/Mark-Barican • portfoliohub-demo.vercel.app/profile/mark

PROFESSIONAL SUMMARY

Full-stack developer with 5+ years building and shipping production web applications across freelance and contract work. Fluent in the modern web stack — Next.js, React, TypeScript, Node.js, and PostgreSQL — with hands-on experience in e-commerce (Shopify/Liquid), full-stack systems, and interactive 3D web. Owns projects end to end: requirements, architecture, client communication, and deployment.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, C++, C, PHP, Dart, SQL

Frontend: React, Next.js, Tailwind CSS, Framer Motion, Three.js, Bootstrap, jQuery, HTML5, CSS3

Backend & APIs: Node.js, Laravel, Prisma, REST APIs, GraphQL, JWT Authentication

Databases & E-Commerce: PostgreSQL, MySQL, MongoDB, SQLite, Firebase, Shopify, Liquid, Hydrogen, Oxygen

Cloud & DevOps: Vercel, Google Cloud, Cloudflare, Apache, Git, GitHub

Tools & AI: Claude Code, Codex, n8n, Figma, Unity, Blender, Adobe Photoshop, Pandas, NumPy, TensorFlow, Plotly

PROJECTS

LoanLink — Full-Stack Loan Management System

Next.js 15 · React 19 · PostgreSQL · Tailwind · JWT

- Engineered a full-stack loan platform with multi-role authentication (Admin / Manager / Staff), repayment scheduling, payment processing, and a live analytics dashboard.
- Implemented JWT-based role access control isolating workflows across three permission tiers; nominated for the Inabel Awards for design and experience innovation.

Repo: github.com/Mark-Barican/LoanLink_Finals · Live: loan-link-finals.vercel.app

Vintage Rider Manila — E-Commerce Storefront with 3D Product Viewer (client demo)

Next.js · TypeScript · Three.js

- Built a full multi-page storefront — product catalog, category filtering, persistent cart state, user accounts, and authentication.
- Integrated an interactive Three.js / WebGL viewer for real-time 3D product rotation, zoom, and inspection.

Live: vrm-demo-umber.vercel.app

Endfield Gacha Simulator — Probability Simulation Engine

Next.js · TypeScript · Python

- Built a simulation engine modeling soft/hard pity thresholds, spark guarantees, and banner rules, validated against official published rates.
- Adopted by 5,000+ users, delivering accurate, reproducible pull simulations.

Repo: github.com/Mark-Barican/Endfield-gacha-simulator · Live: endfield-gacha-simulator.vercel.app

Recraft — Cinematic Brand & Marketing Site (client demo)

Next.js · TypeScript · CSS

- Designed and built a high-end, cinematic single-page brand site with animated section transitions and a responsive, content-driven layout.
- Scored Lighthouse 94–100 Performance, 100 SEO, 100 Best Practices, and 96 Accessibility.

Live: recraft-bar.vercel.app

Additional builds: WeRide — parts catalog & lead-gen storefront, Lighthouse 100 SEO / 91 mobile performance (weride-demo-site.vercel.app); Valentine's 2026 — Three.js interactive experience.

EXPERIENCE

Freelance Software Engineer / Full-Stack Developer — Self-Employed · Mar 2021 – Present

- Delivered 4 end-to-end client engagements — custom websites and web-based systems — owning scope from requirements to deployment.
- Built production web apps with Next.js, React, TypeScript, and Node.js on PostgreSQL/MySQL, managing client requirements and timelines directly.

E-Commerce Developer — Rise Beauty & Wellness Corp · Contract · May – Jul 2025

- Developed and deployed a responsive e-commerce website for a skincare brand, building product catalog pages and customer-facing storefront UI.

Frontend Developer — Boxed Blossoms · Remote · Nov 2024 – Feb 2025 · Makati, PH

- Revamped the company's full Shopify storefront within a 3-developer team led by a project manager; the site launched and remains live in production.
- Architected the initial build on Shopify Hydrogen with Oxygen deployment and GraphQL, then re-platformed to Shopify themes and Liquid to meet delivery timelines.
- Drove timeline and requirement decisions with transparent client communication; customized storefront design and functionality via Liquid, Shopify apps, and Photoshop.

Game Development Apprentice — Definite Studios · 2021 · Quezon City, PH

- Built 2D platformer, side-scroller, and 3D shooter prototypes in Unity, implementing core game mechanics and physics; produced game-ready assets in Photoshop.

EDUCATION

BS in Computer Science — CIIT College of Innovation and Integrated Technology, Manila, PH
